UNLEASH
THE POWER.- KARIM DARWISH
- LAURA MASSAROTHE NEW HEAD
GRAPHENE™ XENON 135.

A squash player always aims for precision and power. And when striving for power, you have to push the limits. The new HEAD Graphene™ Xenon 135 combines unique ball control with effortless power to create the ultimate winning shot. Thanks to Graphene™, the world's strongest and lightest material, this racquet provides optimal distribution of weight and allows you to hit the ball even harder - with less effort. So while staying at the "T", you put the pressure on your opponent.

RACE SERIES

Lightweight durable shoe, packed full of technology makes this shoe the choice of today's leading players. Designed with less heel to toe drop, with a thicker forefoot for great rebound characteristics, makes this range extremely comfortable to play in.

VIPER SERIES

A fast paced agile shoe with a low profile and excellent stability. The Viper model is lower than the Race model, with less cushioning in the fore-foot area, enabling a more close-to-the-court feel, plus a lighter and more breathable upper.

Featuring the same technologies as the Race shoe, but with a 3 layer upper mesh construction and LMS+ with a 11° angle on the outer edge for even greater stability.

INNOVATIVE TECHNOLOGIES

Rebound Foam

Cushioning Foam

Keeps foot in an upright position during lateral movements. The angle & distance the shoe bends for max performance integrated dual torsion unit to support the foot in lateral movements. 5° or 11° angle on outer side for stability. To stabilize and fixate the heel. Curved inner edge for quicker and better lateral push-off. Sole compound with 25% traction improvement. Lightweight performance EVA in midsole. Located in the forefoot for 80% better rebound energy. Located in the heel for 70% better shock absorption.
