- Racket Demo Service
- Knowledgeable Staff

Tennis, Badminton and Squash

We have the largest selection of equipment, clothing and shoes in the UK, if not in Europe. We endeavour to have 90% of all the items featured in this brochure in stock in store, but obviously cannot have all sizes in stock. If you need something specific, then you can always ring the store to make sure.

RUNNING AND FITNESS

We have a new website <http://www.runningnuts.com/> and also stock the majority of running shoe styles in store. Again, you need ring the store to make sure.

HEAD

Graphene™ is integrated into the racquet shaft, making it more stable and allowing an optimized redistribution of weight.

Weight has been shifted to the tip and grip, providing better maneuverability and increased swingweight.

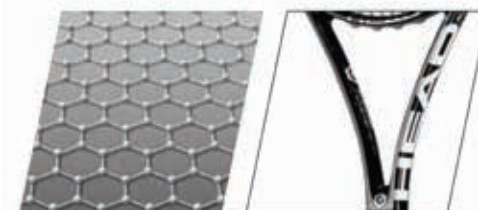

GRAPHENE™

HEAD's new core technology introduces the world's strongest and lightest material: Graphene™.

Discovered in 2004, Graphene™ consists of a single two-dimensional layer of carbon atoms. This material has a breaking strength 200 times greater than steel, which makes it the ultimate substance for creating new HEAD tennis racquet frames with exceptional properties. Graphene™ technology allows for the first time an optimal redistribution of weight in HEAD racquets. Through the use of Graphene™ in the shaft, the weight in the middle part of the tennis racquet can be reduced. Instead, weight can be shifted from the racquet shaft to more functionally relevant areas in the tip and grip. This unique construction provides players with an unmatched maneuverability and an increased swingweight. In other words, a racquet with Graphene™ is easier to swing and enables even more powerful shots. And it will give opponents a really hard time.

FEATURES:

- Graphene™ is the world's strongest and lightest material
- In the construction of HEAD racquets, it enables a redistribution of weight from the racquet shaft to the tip and grip.
- With this optimized redistribution of weight in the racquet, players generate more kinetic energy when they hit the ball. With less effort, more power is generated.

HEAD

THE ONLY TRICK YOU NEED IN YOUR BAG.

- ANDY MURRAY

THE NEW HEAD GRAPHENE™ RADICAL.

Andy Murray's playing style has always been full of surprises. But with the new HEAD YouTek™ Graphene™ Radical, all his tricks come down to one. Thanks to Graphene™, the world's strongest and lightest material, this racquet offers an optimal redistribution of weight to provide better handling and let you swing with more power. So now with less effort, your game becomes even more Radical.

PLAY WITH THE NEW SPRINT PRO.

HEAD

EVEN THE LIGHTEST tennis shoes are of little use if they're not tough enough for your game. So be sure to choose the new HEAD Sprint Pro. The lightweight construction is specially designed for the needs of the pros, increasing their speed without sacrificing stability and durability on the court. You'll be so fast, you won't believe it.

Organix

Organix is high tech carbon nano tubes that surround CNT coated cellulose fibers to obtain elastic properties for more dynamic and power to your game. Due to the explosive springboard effect of the ORGANIX material, it will be loaded up with kinetic energy during initial ball impact and will release it back immediately again due to extraordinary vibration absorbing properties. With the power of carbon nano tubes and the dampening of natural ORGANIX material, it is the most advanced material to date.

PLAYING STYLES

Tennis is constantly evolving and Babolat innovates for players by observing their game...

There are two types of baseliners depending on their court position and the moment they hit the ball.
COMPLETE RANGE TO FIT EVERY KIND OF GAME! FROM PURE PLAYERS...

FIRST STRIKERS

- Play mostly inside the court
- Play the ball on the rise
- Use the ball speed from their opponent
- Use a precision frame type

PUNCHERS

- Play behind the baseline
- Play the ball at the top of the bounce
- Create their own power
- Use a racquet to generate power

TENNIS GAME: A CONSTANT EVOLUTION

YESTERDAY

Players had different playing styles.
FASTER TO THE NET
BASELINER
BEHIND BASELINE

TODAY

Players are baseliners.
But there are two types of baseliners depending on their position on the baseline and the moment they hit the ball.

A COMPLETE RANGE TO FIT EVERY KIND OF GAME!

POWER+SPIN

The Aero range can easily generate power and spin with its aerodynamic frame. For players looking for speed and who want to control their effects every time they hit the ball.

GT AERO

Concentrated at 3 and 9 o'clock on the string bed, the combination of carbon and remarkably stiff Tungsten fibers makes the racquet twice as stable as standard carbon frames, for less torque and greater precision.

CORTEX

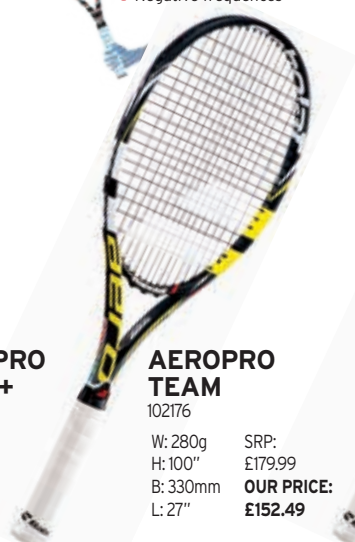

CORTEX EXPERT
A CDS (Cortex Dampening System) interface transmits useful information to the player and the new handle design brings that information closer to the player's hand for perfect control on every hit.

TECHNOLOGIES 100% TENNIS INNOVATION

Babolat
TENNIS RUNS IN OUR BLOOD

Babolat is the tennis specialist and the leader when it comes to innovation, thanks to one simple rule that's easy for fans like us to follow: we watch the players! They constantly surprise us, offering new inspiration and challenges. Above all, they enable us to anticipate future trends and create equipment that will help change their game and the game of tennis as a whole. We're constantly innovating because, as always, tennis runs in our blood.

BABOLAT STRINGS: ALWAYS AT THE FOREFRONT OF INNOVATION

For 138 years, the inventor of natural gut strings has been constantly making progress with strings, pushing the limits and driving technological advancements. Since strings are a racquet's down-right engine, Babolat designs and manufactures high performance strings built with brilliant innovations adapted to the needs of passionate players, from local clubs to world championships. This ongoing quest to innovate, led by Babolat in collaboration with the Team players, enables Babolat to produce increasingly impressive products.

To help you recommend the string that's best suited to each player's needs, Babolat developed this chart that matches the three most common player profiles with their four biggest concerns.

1 PLAYER PROFILE	2 ADDITIONAL BENEFIT	POWER	CONTROL	DURABILITY	COMFORT
PROFILE A PLAYERS LOOKING FOR POWER AND COMFORT / PLAYERS WHO RARELY BREAK STRINGS		VS TEAM XCEL POWER ORIGIN	•	TONIC +	VS TOUCH XCEL XCEL FRENCH OPEN ADDITION

SRP: £34.99
OUR PRICE: £33.00

CHALLENGER

This young player is perfecting his game, increasing precision and initiating tactics. He plays singles and doubles matches. With a graphite core and an aluminum head, a composite graphite racquet will give him power and handling.

NADAL JUNIOR
SERIES

26, 25, 23

K-SWISS

Ultra Express New in 2014

For 2014 the K-Swiss product and design team developed a new ultra-light and breathable high-end tennis shoe offering superior light-weight cushioning. The integrated seamfree technology ensures a high level of comfort and Durawrap reinforcement guarantees lightweight durability in high wear areas. The Ultra Express – giving you a quicker game!
