### PLAY TEST AREA

You can try our hitting wall for both squash and tennis rackets at our Northwood store.

### RE-STRINGING SERVICE

We have hundreds of strings in stock, including Babolat, Prince, Luxilon Big Banger, Tecnifibre, Ashway, plus our own brand Strings.

### RACKET TRIALS

You can demo any racket from either store. The full purchase price is charged as a deposit for demos. Customers are responsible for frame breakages during the trial period, unless due to a manufactures fault. It is the customer responsibility to return the racket safely using a safe method.

## HOW TO CHOOSE A TENNIS RACKET

Each of the manufactures has a different method of categorising rackets. We have simplified the whole process for you. We have given each racket a power level based on:

1. The speed of the ball off the racket- we have tested all the rackets.
2. The head size- the bigger the racket head the more powerful the racket.
3. Thickness of beam- the thicker the beam, the more powerful the racket
4. Weight of racket- Light rackets (225g to 280) is generally more powerful. Medium rackets are generally (280g to 300g). Heavy rackets are generally (300g to 340g) these are control rackets.

So which type of racket should you go for?

**CONTROL RACKET**  
Plenty of control and feed back from the racket.

Would suit: Advanced players playing club team or tournament tennis Players with longer or full strokes. Players who have problems controlling the ball. Good adult sized juniors.

**MID CONTROL/POWER**  
Nice mixture of power and control.

Would Suit: Club or recreational players who hit the ball reasonably well. Advanced players who need more power. Adult sized junior.

**POWER RACKET**  
Very user friendly. Easy to serve with, volley with. Very easy on your body.

Would suit: Recreational players who have a short back swing.

Each Racket will have the following symbols to help you:  
**W** - Unstrung weight in grams • **H** - Head size in square inches.  
**B** - Beam width in millimetres • **P** - Tennis nuts power level

MICRO X

The Micro X performs like a tournament ball and is for advanced players. The Micro X is powered by 700 million air-filled micro cells. The rubber core, made of titanium and polybutadiene, has a softer feel than permanent pressure balls, enhancing spin. Surfaced with our exclusive Flex-Felt™, which is specially designed from wool and polyester fibers, the Micro X offers unsurpassed feel, playability and wear-resistance.

### YOU TEK EXTREME

HEAD's YouTek™ concept aims to provide you with the perfect racket for your individual game. The new YouTek™ IG Extreme is specially designed for the needs of players like Ivan Ljubicic: it offers touch, power and spin for baseline hitters with a long swing style. The IG frame series incorporates "Energy™" material, which reduces vibration on ball impact up to 17%, allowing the racket to get unique control on every shot you take.

PERFORMANCE RACQUETS

SERIES | EXO<sup>3</sup> TOUR

- Better ball response and more 'pop' - even on shots hit off center or at full stretch.
- Large holes increase aerodynamics for faster racquet head speed delivering more power, spin and lightning-quick reaction.
- More consistent ball flight off the string bed provides increased accuracy on every shot, from anywhere on the court.

**EXO<sup>3</sup> TOUR 100** (16x18)

Designed to perform at the highest levels of the game, the new EXO<sup>3</sup> Tour with enhanced string suspension inserts delivers better ball response and more "pop" on off center hits for players who like to take a rip at the ball.

POWER LEVEL: 825  
HEAD SIZE: 100in<sup>2</sup>  
WEIGHT: 310g unstrung  
BALANCE: 12.2in

# ASICS Tennis

The ASICS Tennis range features the ground breaking I.G.S Technology, also used in the ASICS running range.

The ASICS Impact Guidance System (I.G.S) is a fundamental design philosophy around which ASICS' technical footwear is built.

The aim of I.G.S is to encourage the foot to perform in a more natural manner. This is achieved primarily by encouraging the shoe to work with the foot rather than trying to control it. The main focus of I.G.S is the principle of 'dynamic stability'.

ASICS I.G.S incorporates systems into the shoe, that will address all the forces applied to the foot and lower limb throughout the movements in tennis.

Nikolay Davydenko,  
ASICS Tennis Ambassador

- In our opinion, this is the best value for money machine, as equivalent machines from one of the major brands can cost up to £5,000! Specifications: Six-point, suspension mounting system
- True constant pull tensioning system
- Linear ball bearing string gripper with drum
- 10-90 pound (4.5-40.9 kilograms) tension range with 0.1 pound accuracy in both pound and kilogram scales
- 360 degree swivel turntable with ball bearing device
- Four slim diamond-coated, heavy-duty dual-action thumb-adjustable stainless steel swivel clamp (fixed clamps): 2 PN-1012 tennis clamps and 2 PN-1013 badminton and squash clamps
- Handle any diagonal stringing (fan patterned frames)

**Features:**

- Digital electronic stringing machine with keypad and LED digital display
- Microprocessor controlled, electronic pulling and monitoring device eliminates any tension loss during pulling process.
- Six-point, suspension mounting system provides 10-point maximum supports and eliminates any racquet distortion. Micro-adjustable head and throat mounting posts. 4 individually adjustable side-support arms (heavy-duty)
- Padded K-shaped side supports. Padded head and throat mounting posts secure any frame (including deep V-shaped throats), no cosmetic damage to any frame.
- All-metal Linear ball bearing string gripper with drum grips the string automatically. There is no string pull or muscle to use. Also no crimp or damage to any string. See operating procedures. Dual-action swivel clamps can move in any direction up and down; and can handle all types of racquets without extra accessories.
- All-metal spring-assisted swivel clamp base: much easier to use and no muscle needed. Just need one-eighth turn to lock and release the base. See operating procedures. 360 degree racquet rotation with ball bearing device
- 2 convenient tool trays: Top tool tray and front tool tray Convenient racquet holder. Machine base with level-adjustable pads. Tools: Allen wrenches - 6mm, 5mm, 3mm. Free stringing tools: 1 DP-507 diagonal cutter, 1 NP-500 needle nose pliers, 1 BS-809 tennisawl and 1 PN-3092 string mover
- User's manual Free illustrated stringing tutorial guide: show you how to string racquets step by step. String all racquets: tennis, oversized tennis, widebodies, longbodies, fan patterned, squash, racquetball, and badminton. Easy to convert to table-top stringing machine; just need to remove the stand.
- One hour training session with one of our stringers with every purchase of a stringing machine
